Hi Gamers,

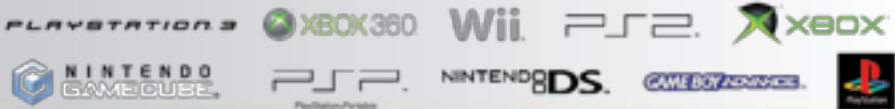

Stop what you are doing! Pick up the phone and order a supply of coffee or energy drinks that is going to last you the next 4 months! Why? Because of the plethora of games we have lined up for you, you won't be sleeping for a very long time!

Titles like Call of Duty 4, Fury and Quake Wars will have all PC fans satisfied! For the party goers, a new Singstar and Buzz every month between now and XMAS along with Guitar Hero 3 will keep that party rocking on.... Still not enough? Throw in Super Paper Mario , Juiced 2, Zelda: Phantom Hour Glass and Skate and there aren't enough hours in the day!

Want to find out more? Get onto www.ebgames.com.au and while you are there, make sure you sign up to wEBmail to get your hands on the latest hottest offers.

nintendo Wi-Fi connection

RRP \$69.95

SKU - 1408731

Link is back in a brand new adventure only on NINTENDO DS. Set several months after the story of the Nintendo GameCube smash hit "Wind Waker", Phantom Hourglass sees Link brave the high seas and mysterious islands once again in a quest to find the lost Pirate Leader "Tetra". The entire game can be controlled using only the DS Touch Screen. Navigate your ship, swing your sword, speak to other characters all with the Stylus. The game also includes a 2 Player Wi-Fi versus mode where one player controls Link, while the other manages the enemies that pursue him.

Wii

Big Brain Academy™ Wii Degree

Welcome to Big Brain Academy, the only school where you can school your friends and family! How big is your brain? Find out as you test yourself with numerous lightning-fast activities across several categories.

Professor Lobe will challenge you with a bevy of hilarious and exciting brain-teasers. Then, when it's all over, the professor will calculate your brain weight, award you with a grade, and give you an idea of what career track is best suited for your brain weight. Don't worry, it's all in the spirit of fun!

A wide variety of single, multi-player and co-op modes designed for people of any age or education level make Big Brain Academy the perfect way to challenge yourself or your friends and family, and the better you get at an activity, the harder it becomes. You can even send your grades to friends using the Wi-FiConnect 24 Internet service (Requires broadband connection).

Pokémon Battle Revolution

Pokémon Battle Revolution takes place on an island called Poketopia, where your goal is to battle your way through challenging Golosseums to become the Poketopia Master. Pokémon Battle Revolution is the first Wii - Nintendo DS linked title, which means that you can transfer your Pokémon from Pokémon Diamond and Pokémon Pearl wirelessly and watch them battle in full 3D!

**COMING SOON
PREORDER NOW**

FEATURES:

- Grab a Rental Pass, customize your Trainer, and battle your way to the rank of Poketopia Master.
- Compete against friends across the country using Nintendo Wi-Fi Connection!
- Transfer the Pokémon you've raised in Pokémon Diamond and Pokémon Pearl and watch them battle on the big screen!
- Battle against up to three other friends with Pokémon Diamond or Pokémon Pearl while using your Nintendo DS as a controller.

METROID PRIME 3 CORRUPTION

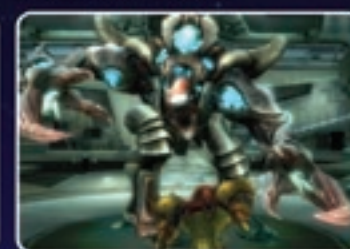

Wii

RRP \$99.95

SKU - 1388263

The final chapter in the Metroid Prime Trilogy is about to explode onto the Nintendo Wii. Players resume the role of female bounty hunter Samus in a quest to stop her nemesis, Dark Samus, from taking over the galaxy. Experience a whole new level of first-person control only possible on Wii. Fire on the run, grapple enemies and yank off their shields or manipulate machinery with movements of the Nunchuk and Wii Remote. Aim and blast in midair or at a full run, using an array of different weapons that become powered up as the game progresses. Physically interact with machinery (by pushing, twisting and pulling the Wii Remote) and latching onto things with Samus' grapple beam (by casting forward and then yanking back the Nunchuk).

Multiple sensitivity settings for aiming ensure that the game controls like a dream for both novice players and veteran first-person shooter enthusiasts. Advanced players will find the Lock-on Free Aiming system is unparalleled. Players can lock the camera on enemies with the Nunchuk's Z button, yet still have complete control of where they aim with the Wii Remote. The result is perfect first-person control.

SUPER MARIO GALAXY

The ultimate Nintendo hero is taking the ultimate step... out into space. Join Mario as he ushers in a new era of video games, defying gravity across all the planets in the galaxy.

Shake, tilt and point! Mario takes advantage of all the unique aspects of the Wii Remote and Nunchuk controller, unleashing new moves as players shake the controller and even point at and drag items with the pointer.

Mario essentially defined the 3-D platforming genre with Super Mario 64, and this game proves once again that he is king. Players perform mind-bending, low-gravity jumps across wild alien terrain as they experience platforming for a new generation.

PS3 UNCHARTED DRAKE'S FORTUNE

EBGAMES.COM.AU NOW ONLINE

A 400-year-old clue in the coffin of Sir Francis Drake sets a modern-day fortune hunter on an exploration for the fabled treasure of El Dorado, leading to the discovery of a forgotten island in the middle of the Pacific Ocean.

The search turns deadly when Nathan Drake becomes stranded on the island and hunted by mercenaries. Outnumbered and outgunned, Drake and his companions must fight to survive as they begin to unravel the terrible secrets hidden on the Island.

Drake's Fortune delivers intense action and exploration in a fully immersive environment with an unmatched level of realism thanks to the power of the PS3's Cell processor.

The best selling skate franchise is back in it's 2nd next-gen outing. Tony Hawk's Proving Ground expands on some of the new features introduced in Project 8. (In addition to Nail the Trick, there is Nail the Grab and Nail the Manual.) and it brings back some old favourites like fully customizable characters and a brand new video editor that allows you to make your own skate videos and share them online. Players have the freedom to define their character's skating style with combinations of skills from 3 classes... Chase fame and fortune as a pro... gain street cred as a hardcore skater, or build and explore new spots as a rigger. Proving Ground also features a new customizable online Skate Lounge where you can skate with friends in the ultimate pad. This time around the settings include legendary real-life skate spots from Philadelphia, Baltimore & Washington DC.

Juiced 2

HOT IMPORT NIGHTS

EBGAMES
EXCLUSIVE
SEALED
SECTION

THQ

IT'S ALL ABOUT... THE EVENT

Juiced 2: Hot Import Nights's career mode sets you up as a new racer on the Hot Import Nights circuit. Progressing through 10 leagues from Rookie to World Class and HIN Elite, you will come across new and different race modes, extreme mods, cars and challenging events.

Race modes:

There are eight race modes in Juiced 2: Hot Import Nights:

Circuit Race:

Race around the streets, drift, nitrous and spook your way to the finish line.

Last Man Standing:

Similar to a circuit race but hit a barrier and you're out.

Circuit Eliminator:

At the end of each lap, the driver in last place gets eliminated.

Solo Drift:

Achieve or beat a target score within a set number of laps.

Twin Drift:

Twin Drift is a judged event between two drivers over two runs. One driver takes the lead as the defender and the other assumes the role of attacker. Each driver has a turn in each position. The highest score wins.

Drift Obliterator:

Fight your way to the front of the pack to win the race, while avoiding elimination by reaching the target drift score on each lap.

Drift King:

In Drift King, compete against up to 10 other drivers for the highest drift score.

Drift Enduro:

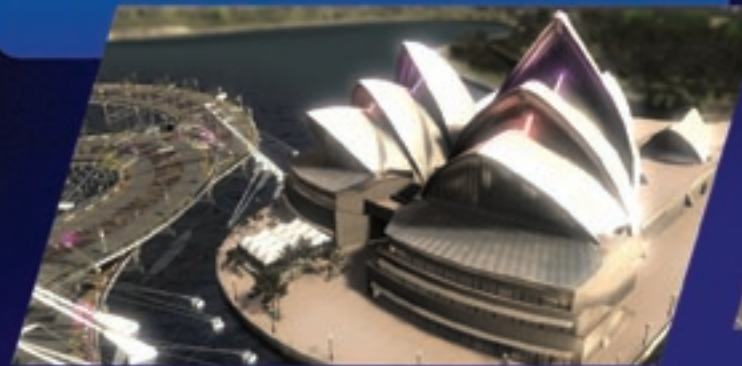

The ultimate drift challenge: with unlimited laps, players drift until they break the chain or hit a barrier. No score limits!

Globetrotting:

The Juiced2: Hot Import Nights event team has descended upon some of the world's most glamorous cities. The team has set up barriers and marked routes around the famous landmarks. The crowds are massing at the best vantage points in order to get the most spectacular views and all that's left is for the drivers to take their positions!

Sydney:

Sydney is an outstanding location for Juiced 2: Hot Import Nights Drivers to visit. Catch glimpses of the Sydney Opera House and the awesome Harbour Bridge as you drift around the unique track, suspended on pontoons in the harbor itself.

San Francisco:

The undulating streets challenge even the most accomplished drivers with many cars actually flying around the circuit. Hurtle past the Ferry Building, the foot of Market Street, before turning into the city around Union Square and past the Trans America Pyramid in the financial district.

London:

The capital city of London is steeped in history and divers get the chance to race around world famous landmarks that usually only see traffic traveling at a pedestrian 30 mph. Drift drivers will enjoy London too with the track snaking around the London Eye.

Rome:

The imperial city of Rome is home to some of the most spectacular and oldest buildings on the Juiced2: Hot Import Nights circuit. Tires scream around the Monumento Nazionale a Vittorio Emanuele II, the Arch of Constantine and past the Coliseum.

Paris:

Paris is the drift driver's dream location. The Juiced2: Hot Import Nights events team have set up an awesome spiraling track around the Eiffel Tower. Only the most controlled drivers will be able to handle the track's many surprises.

EBGAMES HOT FACT:

Twin Drift exactly replicates the real sport of drifting, it even has virtual judges!

ITS ALL ABOUT... THE POWER

A racing game lives or dies by its cars and *Juiced 2: Hot Import Nights* brings over 90 of the world's best to the table. Looking and driving like their real world counterparts, there's a huge variety of cars...

Exotics

The pinnacle of automotive engineering, exotics are high performance cars that prove the benchmark in *Juiced 2: Hot Import Nights*. Some drivers will strive to earn enough money to maybe buy themselves an Ascari KZ1 or a Pagani Zonda F Roadster.

Old Muscle

A muscle car is a high-performance car with a large-capacity engine. The original muscle cars appeared between 1964 and 1973 from American manufacturers such as Chevrolet, Plymouth, Dodge, Pontiac and Ford. The appearance of the muscle car marked a general trend towards factory performance and in turn reflected the importance of the youth market.

Euro

There's no doubt that the kings of the modding scene have been the Japanese imports.

However, the European car manufacturers have started to get noticed too. The pinnacle of the Euro-scene has to be the BMW M3 but there are others too. The Golf GTi, the Leon Cupra R and the Focus SVT lead up an impressive pack of highly moddable cars.

Modern Muscle

The original muscle car era is long gone. However, in a bid to return to those heady days many US car manufactures have reintroduced modern interpretations of old classics. These new pretenders feature large V6 or V8 engines supplying an impressive 425hp. They've been styled in a manner that acknowledges their roots but also looks to the future.

"Ricers"

The late 80s saw the genesis of the modding scene. Starting in Southern California, car enthusiasts began to modify their imported Japanese vehicles, following similar trends that originated in Japan. Common upgrades soon became available allowing the replacement of standard factory components with performance parts.

One of *Juiced 2: Hot Import Nights'* key features is the ability to "juice-up" your car by customising it. With more than 8.5 trillion modification options, 50 layers of decals, real world performance and visual modification parts from more than 180 companies and even licensed steering wheels and seats, you can be sure your ride will be truly unique.

Visual Mods:

Change the look of your car by adding spoilers, changing wheels or attaching full body kits – you can even change the interior but fitting a new steering wheel or racing seats!

Paint Shop:

The paint shop not only lets you to choose any color you want – it also allows you to try different paint techniques. How about a matt finish or even a thin film varnish?

Decals:

Personalize your car with a library of over 2000+ decals. Once a decal is added, you have options to alter its scale, opacity, color and orientation on different sides of the car.

OPTIONS

1,991,518

EBGAMES™ HOT FACT:

If you fancy your skills as a modifier you can sell your decal and paint jobs to other gamers online

Using simple geometric shapes and other available decals it's possible to create your own unique designs. If you want quick results, simply choose our decal packs to add complete themes to your vehicle.

ITS ALL ABOUT... THE MODDING

IT'S ALL ABOUT... THE DNA

EBGAMES™ HOT FACT:

Juiced 2: Hot Import Nights' Aussie content includes Holden Monaros, Ford Falcons and NSW plates

In a revolutionary feature, Juiced 2: Hot Import Nights creates a DNA profile of your racing style by monitoring many hundreds of parameters that define the nature of your performance and your experience in three categories: circuit racing, drifting and gambling.

If you are aggressive and collide often when maneuvering, brake late and use NOS often, your DNA will burn like fire. If you are super precise in your maneuvering, your DNA will be ice cool. You'll see the strands build up the more you race, and this reflects DNA achievements or experience.

The primary use of DNA is to assess your strengths and weaknesses as a driver, particularly when compared with other drivers. If you are betting pink slips, always check out your competitor's DNA on the grid first! You have been warned!

Driver DNA Lab

The DNA Lab is a huge feature of the game and provides an incredible amount of game play outside of the career mode:

Custom DNA Races:

Set up a custom race on any track, choosing the mode, number of laps and which specific opponents you want to challenge.

Celebrity Challenges:

Take on some of the best street racers in the world including Beau Yates, the Drift Australia Champion 2006. If you can beat them you win their car and add their DNA to your crew.

HIN Crew Challenges:

Take on the HIN's top racing crews in a series of tough as nails challenges

Online, DNA becomes even more interesting as you automatically download the DNA of anyone you race against. Once downloaded, you can either use it as your crew mates in your own team, or to set-up special offline events in the Driver DNA Lab, where you can study how others drive. Imagine being able to practice against your online nemesis without them being there!

So you can customise your car and get it looking just how you want it. Now all you need to do is show it off to the world. The Xbox360, PS3 and PC versions of Juiced2:Hot Import Nights have been designed to take full advantage of online capabilities with a view to creating a vibrant community.

Spectating

Up to 16 players can also spectate on a race and even place bets on the outcome. Odds are determined based on each racer's history and DNA profile and are updated in realtime. As an added touch, betting spectators increase or decrease a racer's nitro in an attempt to influence the outcome. The more support you have, the better your chances.

Online Career

The online Career is like the offline game but instead of AI rivals you'll be there with like-minded drivers. You progress through the career by completing goals in the same way as the offline game. Each League has a meeting room where all the other players in your league will meet while you decide which goal and event you want to attempt.

Custom Racing

For a more immediate experience you can compete against players from around the world in a Custom Race using any of the game modes and tracks.

Betting

If you're racing you can place game bets with any other racer on the grid online and for gamers with nerves of steel there's pink slip racing.

Trading

Trade cars that you have modded and customised and even trade your decal and paint job designs. Each car comes with its own logbook that charts who has owned it and what races it has been used in.

TIMESHIFT

COMING SOON
PREORDER NOW

Gamers assume the role of renowned and recently retired test pilot Colonel Michael Swift, who has just lost his only daughter to a bus accident. Bleak, depressed and desperate for an escape from his misery, Swift decides to accept a recent offer from the US Government. Armed with a time-control device called the "Quantum Suit" and a time machine called the "Chronomicon," Swift sets out to test the most significant inventions of the century. He is briefly sent back in time to plant an experimental probe. Upon his return to the present, a shift has occurred. The world he left has changed beyond all recognition. And his knowledge of the true time stream has made him an enemy of the state. Swift is now both on the run and on a mission to set time straight once again.

CRYEIS

Earth, 2019: A colossal asteroid crashes down to Earth.

The North Korean Government quickly seals off the island chain, claiming the mysteries of the asteroid for themselves. The United States responds by dispatching an elite team of Delta Force Operators to recon the situation and report back to the Pentagon. Amid rising tensions between the US and North Koreans, the asteroid suddenly bursts open, revealing a massive, 2km high alien ship. The ship generates an immense force sphere, freezing a vast portion of the island and drastically altering the global weather system. The invasion of Earth has begun.

The two rival nations unite to stop the aliens and save mankind. The newly formed alliance fights epic battles against the marauding Aliens. With hope rapidly fading, the player must lead a crack squad through lush tropical jungle, harsh frozen landscapes, and finally into the heart of the alien ship itself for the ultimate Zero G encounter with the aliens.

Product Safety Recall

EBGAMES

Electronics Boutique Australia Pty Limited trading as EB Games, in cooperation with the Australian Competition and Consumer Commission, is voluntarily recalling all "PowerWave" PSP Compatible AC Power Adaptors (Model: PSP-100) sold at EB Games stores throughout Australia between 1 February 2007 and 1 June 2007.

The PowerWave PSP Compatible AC Adapters are considered defective and potentially unsafe. Customers who have purchased a PowerWave PSP Compatible AC Adapter should immediately unplug the product from the mains power supply and stop using the product.

PowerWave PSP Compatible AC Adapters can be returned to the EB Games store of purchase for a full refund. Enquiries about this product recall may be directed to the customers' EB Games store of purchase, via our website at <http://www.ebgames.com.au> or call 07 3860 7777.

See www.recalls.gov.au for Australian Product Recall Information
